*Owning and operating The Edwards Aquaveg Process
for Beautifying, Cleaning and Disinfecting
Oriental Rugs and Textiles.*

THE TEXTILE IMPROVEMENT CO. is prepared to clean, disinfect and repair Rugs and other Oriental Textiles for Collectors and Private Owners, using the Aquaveg Process—a recently invented method for cleaning and beautifying Oriental fabrics, endorsed by John Kimberly Mumford and other experts as the only method of effectively cleaning these delicate textiles without injury to the beauty of color or longevity and lustre of Pile.

All the Oriental Textiles here exhibited have been washed by the Edwards' Aquaveg Process—their appearance will testify to the merits of the method.

THE TEXTILE IMPROVEMENT CO. announces a department for the sale, on order, of Oriental Textiles—Rugs, Carpets, Khilims, Saddle-bags, etc.—the aim being to furnish *at moderate prices* Oriental Fabrics of all grades from Rare Rugs to Practical Modern Carpets. No treated (“washed” or “doped”) pieces will be sold, the honesty of each piece being guaranteed.
